Robert H. Pinckney
CEO
EvoShield, LLC
300 Commerce Blvd,
Bogart, GA 30622

Dear Marge,

EvoShield is proud to support the efforts of the National Athletic Trainers Association in helping to increase injury prevention awareness and help protect athletes at all levels of play.

EvoShield is founded on the principle that helping to protect kids and athletes is a high calling. And we work to provide the improved protective equipment in a way that will be embraced and used at all levels of play. EvoShield's unique ability to custom-form to the athlete provides thinner, lighter, and stronger protection that athletes at all levels will enjoy wearing.

EvoShield is devoted to being at the forefront of protective product development across all contact sports and shares the NATA's passion for reducing the risk of injury where possible and practical. EvoShield is also devoted to developing protective gear that is comfortable and non-interfering – protective gear that allows an athlete to perform at his or her highest level possible.

Thank you for allowing EvoShield the opportunity to participate in the NATA's Youth Sports Safety Alliance. We look forward to working with you in advancing the goals of the NATA in this very worthwhile initiative.

Sincerely,

Bob Pinckney
CEO

THE BEST PROTECTIVE GEAR. THINNER. LIGHTER. STRONGER.
