National Athletic Trainers Association
1620 Valwood Parkway
Suite 115
Carrollton, TX 75006

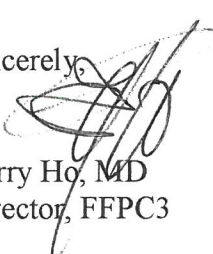

Dear Ellen:

The Fairfax Family Practice Comprehensive Concussion Center doors opened in the spring of 2013 as a sub-specialty practice within the Fairfax Family Practice Center's Sports Medicine Department. Our mission is to provide comprehensive concussion management and care to patients of all ages, athletes and non-athletes who have suffered a mild traumatic brain injury. We have also partnered with JLA Consulting, LLC to provide concussion education and baseline testing to the area's youth sports leagues and associations.

We are pleased to join the National Athletic Trainers Association and the Youth Sports Safety Alliance *along with other health care and medical associations and practices interested in supporting the advancements of youth sport safety.*

Together with our partners we intend to provide a continuum of care to our area youth and beyond.

Sincerely,

Garry Ho, MD
Director, FFPC3
