Ellen Satlof
National Athletic Trainers' Association
2952 Stemmons Freeway
Dallas, Texas, 75247

Dear Ms. Satlof:

Heart of a Legend Foundation, a non-profit organization based in Phoenix, Arizona is dedicated to bringing awareness of sudden cardiac death in our young by providing FREE cardiac screenings. These screenings are also provided to former NFL players and other professional athletes which offers an opportunity for a high school athlete to receive a college scholarship in the name of a former professional athlete. Some of these services performed are as follows:

- *Echocardiogram*
- *EKG*
- *Carotid Artery Ultrasound*
- *Venous and Arterial Ultrasound*

We have set up numerous heart screenings in Arizona high schools to help bring awareness to defects, arrhythmias or genetic heart abnormalities to prevent Sudden Cardiac Death.

The NATA Youth Sports Safety Alliance and the Heart of a Legend Foundation share common goals. Both are committed to keeping our youth safe. We look forward to working together with you and would respectfully request consideration for membership in the NATA Youth Sports Alliance. Thank you for our consideration.

Respectfully,

Eileen Spengler, RCS, CRS
Founder
