National Athletic Trainers Association
2952 Stemmons Freeway
Dallas, Texas 75247

Dear Ellen,

The NeuroSpine Institute Foundation (NSIF), would like to pledge our support of the National Athletic Trainers Association and would be honored to promote the Youth Sports Safety Alliance.

The main goal of NSIF, is to promote youth sports, while educating how to stop all types of preventable injuries from occurring including concussions and spinal cord damage. I believe the common goals and synergy between our organizations will work well to educate parents, coaches, teachers and the athletes themselves to recognize the signs and symptoms of concussion.

Please do not hesitate to contact me for additional information.

Yours truly,

Lauren B. Wolf
