Carrollton, Texas, 75006

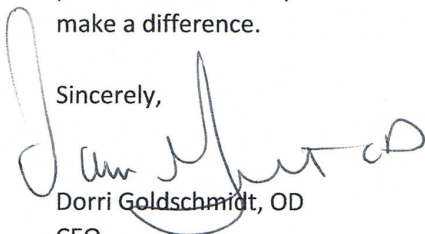

Dear Youth Sports Safety Alliance,

Sports Vision South is proud to join the National Athletic Trainers Association's (NATA) Youth Sports Safety Alliance (YSSA). We are pleased to support and raise awareness for the Alliance's National Action Plan for Sports Safety. As a provider of concussion baseline and return to play testing using the King-Devick Test and Dynavision International's clinically validated protocol, our company is aligned with the goals and purposes of this program. In addition to the concussion services we provide, we are uniquely positioned to provide high performance vision and cognitive training. This training has been shown to decrease the incidence of concussion in football as demonstrated by the recently published at the University of Cincinnati.

Sports Vision South is a state of the art training center located in the Birmingham, Alabama area. We provide training using technology and training techniques employed by Division 1 programs and successful professional sports teams in every sport here in the US and Internationally.

We are very pleased to be able to support the Youth Sports Safety Alliance. As a community of providers we will help to ensure the safety and wellbeing of developing athletes and we can all help make a difference.

Sincerely,

Dorri Goldschmidt, OD
CEO
Sports Vision South
