

January 24, 2013

The National Safety Council would like to be a part of the Youth Sports Safety Alliance. Since 1913, the mission of the National Safety Council is to save lives by preventing injuries, deaths at work, in homes and communicates, and on our roads. Our goal is to save an additional 10,000 lives and prevent one million injuries by 2014.

The National Safety Council and the Youth Sports Safety Alliance have similar missions since we both raise awareness, advance legislation and work to prevent injuries and death. Please let me know what we need to do to be a part of your Alliance?

A handwritten signature in black ink that reads 'Donna M. Siegfried'.
