Ellen Satlof
Youth Sports Safety Alliance
c/o National Athletic Trainers' Association
2952 Stemmons Freeway
Dallas, TX 75247

Dear Ms Satlof:

The Taylor Haugen Foundation fully supports and encourages the efforts of the Youth Sports Safety Alliance.

The Taylor Haugen Foundation was created to honor the memory and uphold the legacy of our son. Taylor was a 15 year old Niceville High School student who passed away after an injury sustained during a football game on August 30, 2008. The Taylor Haugen Foundation provides support and recognition to athletic students and community organizations through awards, scholarships and funding. Additionally, the foundation forms business alliances with new technology companies that provide specialty sport safety equipment that better protects our children from injury. The foundation provides grants to teams, schools, districts, etc in order for them to get this equipment on our youth.

This is where the alliance and the Foundation have great synergy. We look forward to working with you, your alliance and its members to bring about awareness, safety and equipment to our youth in order to better protect them while enjoying athletic activity.

For more information regarding the Taylor Haugen Foundation and our efforts please refer to www.taylorhaugen.org. We look forward to attending your next summit.

Sincerely;

A handwritten signature in blue ink, appearing to read 'Brian and Kathy Haugen'. The signature is fluid and cursive.
